CATS[®]2008 EIM
COMPENSATION ACTIVITY TRACKING SYSTEM

EDITIONS AND VERSIONS

	WORKSTATION	SERVER	ENTERPRISE
Version Description	CATS 2008 Workstation is best buy/best value in class and utilizes an internal file-server database engine. The Workstation edition can be installed on a local file server or desktop PC.	CATS 2008 Server is a true enterprise class application that provides seamless integration with robust Client/Server databases and ODBC data sources. CATS 7005 Server currently supports Microsoft SQL Server 7.0 and Oracle 8i.	CATS 2008 Enterprise is a best-in-class web-enabled application that provides a rich platform for designing and administering incentive-based compensation plans. The Enterprise edition can be accessed over the web using a web browser.
